

Technical data sheet for spare filter mats FM25...

Filter class according to EN 779:2012	M5/F5
Article-Nr.	FM25...
Weight, approx.	250 g/m ²
Thickness, approx.	20 mm
Thermal stability	up to 100 °C
average efficiency	> 40 %
Nominal media velocity	0,25 m/s
Pressure drop	20 Pa
Possible cutting tolerance	+/- 2-3 mm < 1400 mm

Characteristics:

- Filter class M5/F5 according to EN779:2012
- Synthetik-Filter mat
- fire behaviour: the filter mats satisfy the stringens requirements of Fire Class F1 according to DIN 53438 and are thus self-extinguishing

Technical changes and errors are excepted
